STARTIFY7

About the topic: Security & Privacy by design

STARTIFY7 is a Horizon2020 project from the European Commission, within the Call ICT 35 "Innovation and Entrepreneurship Support", aimed at training young future ICT entrepreneurs in Europe.

The core challenge for STARTIFY7 is to connect with existing ICT enterprise-training structures through our 7 thematic learning academies which will combine lean start-up training with team-building for young people.

The Trento Summer Academy will be focused on identifying innovative solutions that will enhance security and privacy features of ordinary products. The program is designed to guide the participants through the whole process of validation, development and presentation of their own idea with the help of local and international mentors. The Academy will be held in English.

We are looking for curious students with technical or business-marketing academic background.

Requirements to participate

- To be at least 18 years old at the time of application.
- To have an English proficiency level equal to B2 (certificate not mandatory).
- To be enrolled in High School or in University (including Bachelor, Master or PhD students), both Located in a EU country or [EU associated country](#).

Benefits for our Participants

- Travel expenses refund to Trento (max €100 for each participant).
- Accommodation from July 26, 2015 to August 8, 2015 at [Studentato San Bartolomeo](#).
- Local transportation to the Summer Academy venue: [EIT ICT Labs Co-Location Centre Trento](#)
- Weekday's lunches, coffee breaks, and educational material.
- Meeting local and international experts and entrepreneurs of the ICT world.

The best 3 ideas will participate in the Startify7 Boot Camp, with covered travel expenses, in a central European location approx. in October 2015, to continue to work on their ideas and to meet international mentors and investors.

How to apply

Candidates should submit their application form at www.startify7.eu/trento
